Updates and News! : Hi everyone! Just a few updates and news before release. - I've adjusted the release date to be a bit earlier, Radiant Arc will be coming out on May 31st hopefully without delay! - I've finally figure out how to do put in steam achievements (took way too long XD) and will be implementing them throughout the game, most being achievable through a full

playthrough -Various Balance Changes (upon full release, I will make more detailed bugfix/patch notes) (since my game involves a lot of characters/skills/builds, balancing can be a bit tricky) -Bug Fixes/Crashes -Upon full release, do not hesitate to report bugs through either contacting me through discord or posting on Steam. -I am actually slowly working on a sequel to Radiant Arc, which takes place 20 years in the future! :) Thank You all, and I hope you will enjoy Radiant Arc.. Discontinued Achievements : To all players, Due to complicated reasons, achievements will be removed from Radiant Arc for now. Currently I have discovered that a massive majority of bugs stem from me updating my NW.JS. Many bugs I had before never existed until I updated my NW.JS just for the Steam release. A higher version is required for me to utilize steam achievements however this results in a large amount of nasty bugs such as crashes, list disappearing etc. Currently it is causing me a headache to figure out and for now to ensure a more stable experience, has been removed for now. Once again, very sorry to all players and I wish you will continue your support for Radiant Arc and my future games.. Now Coming To Steam! : After 4 long years of development, my first game Radiant Arc is coming to Steam! I will be taking some more time to fix bugs and polish off parts of the game.. Radiant Arc Released! : Radiant Arc has finally released! I am very excited for the public to try my RPG that has been in development for 4+ years. There may be bugs that crop up but as soon as they are addressed to me, I will try my best to fix them. As well, any suggestions, balance suggestions, and even ideas for a future game let me know by letting me know in discord or on the game's forum page.
