MOVING FROM PROTEIN HYPE TO SUSTAINABLE FOOD SYSTEMS

CONCLUSIONS

- There's lots of hype about meat and protein
- It's narrowly focused on CO₂
- It ignores how food is produced
- It ignores differences between world regions
- It fails to see the whole food system
- It's focused on simplistic silver bullet solutions

RECOMMENDATIONS

- 1 Focus on achieving a transformation to 'sustainable food systems' - not a 'protein transition'
- 2 Prioritize reforms that deliver on all aspects of sustainability starting at regional level
- 3 Reclaim public resources from 'big protein', realign innovation pathways with the public good, and reset the debate
